YOUNG ONCOLOGIST CLUB

X INTERNATIONAL MEETING OF YOUNG ONCOLOGIST CLUB

The Modern Cancer Treatment: Precise Medicine and Molecular Diagnostics

May 26-28 2023, Hyatt Regency Pravetz

Dear friends and colleagues,

The Young Oncologist Club is organizing its 10th Anniversary International Oncology Meeting on 26-28 May 2023 at the Hyatt Regency Hotel Pravets. The topic of the event is "The Modern Cancer Treatment: Personalized Medicine and Molecular Diagnostics".

Bulgarian and foreign specialists in the field of medical oncology, pathology, surgery, and radiotherapy will discuss the importance of molecular biology in the diagnostics, treatment and prevention of all types of cancer.

The program focuses on the treatment of lung cancer, breast cancer, malignant melanoma, colon cancer, prostate cancer and others.

You will have the opportunity to participate in plenary lectures related to new therapies and challenges in the treatment according to the new understandings in oncology and immunotherapy as a new standard of care. A poster session with awards for the first three posters will be held with the participation of young colleagues up to 45 years of age, clinical cases will be discussed in interactive sessions.

All topics will be presented in English.

We are looking forward to sharing your experiences and new ideas for cancer patients' treatment.

Dr. Rossitza Krasteva
Chairman of Young Oncologist Club
